## Introduction

AHM Trading & Transports was established to provide services in oil & gas industry in 1997 and expanded its service in 2007. As a company owning years of experiences in service oriented support to energy sector, we are mainly focusing to provide service support for companies working in oil & gas sector in the Sultanate. The AHM Oilfield Services is now near to its goal and strategy, initiated in 2007. The strategy is known as Shared Vision and aims to rebuild the company and revitalise the AHM Trading & Transports as Oilfield Services combining its previous activities along with involvement in new sectors for creative business interest in oil & Gas Sector and other markets as well.

AHM Oilfield Services is now located at Al Azhaiba in Muscat, Sultanate of Oman, its postal address is PO Box. 131, PC. 115, MSQ and founded by Abdullah Hamood Mohammed Al Shukaili, a highly experienced with forty years of technical and managerial work experience in a multi national oil & gas company. His ability to build strategy is the secret of our progress.

Under this esteem leadership the company is operated with trustworthiness that have established an internal culture of being honest and straightforward. We do what we say and follow through in treating our business with the proper respect and flexibility that our valued customers deserve.

Makes our vision transparent

## Our Mission

AHM Oilfield Services' mission is to be a part of rapid growth of the Sultanate, especially in energy sector and in booming construction sector. We value human intelligence and there for to provide our service through professionals capable for related sectors to assist and facilitate Local and International companies in Oman.

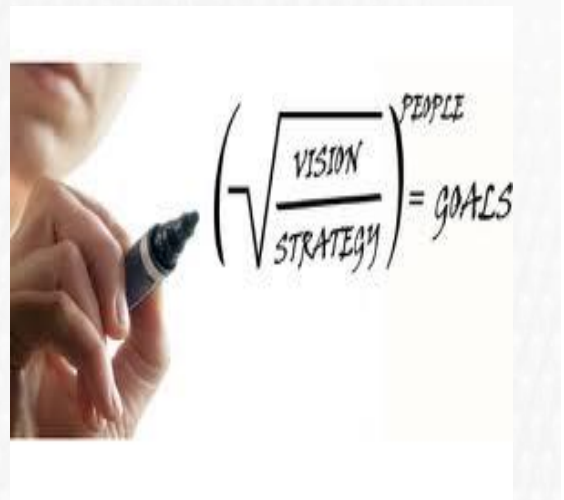

We are committed in providing the best and safe working atmosphere for our employees and their long term growth.

We will pursue this vision with determination and a boundless spirit and demonstrate our belief in its ultimate reality through our decisions, actions and reactions everyday at AHM

## Our Vision

To become a systematic service provider and supplier, employing the best business practices. We shall achieve this by being the first choice as a total service provider and supplier in the sector of its operations. We are committed to provide necessary training to accomplish the goal of Omanization to Omani youth to make them self reliant according to their capabilities and the fields interested.

## Features

### □ Health, Safety & Environment

AHM believes in our values of integrity, accountability, trust and transparency and teamwork that shape our Health & Safety excellence. Because we well understand of some specific characteristics of petroleum industry, in normal operation there are always risk of injury and pollution, especially when accidents happen. To reduce this risk factor it is in need of effective implementation of Health & Safety system. We believe that it is a social responsibility of any company that engage to business in petroleum industry to develop a health & safety culture constantly to settle the staff's health and safe work atmosphere, improve the working environment and through that express commitment to society effectively. The company aims to make this culture sustain not only in energy sector but in all its activities and promote in our employees' individual life.

Our uncompromised HSE practices led us to a safe work satisfying our client without any major incidents.

The briefly recorded HSE performance statistics shows our excellence.

HSE STATISTICS (Performance Data)
